PROXY STATEMENT

INTRODUCTION

The enclosed proxy, for use at a Special Meeting of Shareholders (this “**Meeting**”) to be held at the offices of Ropes & Gray LLP, 1211 Avenue of the Americas, New York, New York on Monday, July 21 and any adjournments or postponements thereof, is being solicited on behalf of the Board of Directors (the “**Board**”) of the Company. As used in this Proxy Statement, the terms “**we**,” “**us**,” “**our**,” “**Company**” or “**Kohlberg Capital**” refer to Kohlberg Capital Corporation.

A shareholder may also choose to vote electronically by accessing the Internet site stated on the form of proxy or by using the toll-free telephone number stated on the form of proxy. The proxy may be revoked by the shareholder by giving notice of revocation to Kohlberg Capital in writing, by accessing the Internet site stated on the form of proxy, by using the toll-free telephone number stated on the form of proxy, or in person at the Meeting. A shareholder may also change his or her vote by executing and returning to the Company a later-dated proxy, by submitting a later-dated electronic vote through the Internet site stated on the form of proxy, by using the toll-free telephone number stated on the form of proxy or, or in person at the Meeting. All properly executed proxies received by the Board and all properly authenticated electronic votes recorded through the Internet or by telephone will be voted as directed by the shareholder. All properly executed proxies received by the Board that do not specify how shares should be voted will be voted “**FOR**” the authorization of the Company, with approval of the Board, to sell shares of its common stock or warrants, options or rights to acquire its common stock at a price below the Company’s then current net asset value per share (the “**Proposal**”).

The Proposal was previously submitted to a vote of the Company’s shareholders at the Company’s 2008 Annual Meeting of Shareholders (the “**Annual Meeting**”), and both Institutional Shareholder Services Inc. (“**ISS**”) and Proxy Governance, Inc. recommended that the Company’s shareholders vote in favor of the Proposal. ISS is a leading independent U.S. proxy advisory firm and its voting analyses and recommendations are relied upon by hundreds of major institutional investment funds, mutual funds and fiduciaries throughout the country. Proxy Governance, Inc. is a wholly-owned subsidiary of FOLIO *fn* that has been providing proxy advisory and voting services since 2005 to money managers, advisory firms and financial institutions. At the Annual Meeting, 9,776,147 shares (or approximately 86% of the shares voting on the Proposal) voted in favor of the Proposal, 1,495,045 shares voted against the Proposal, 97,482 shares abstained from voting on the Proposal, and there were 3,442,382 “broker non-votes” (shares present at the Annual Meeting and voting for certain routine discretionary matters at the Annual Meeting but for which the nominee or broker had received no authority to vote on the Proposal from the beneficial owner), which had the same effect as votes against the Proposal. As a result of the applicable voting standard, the Proposal was not approved at the Annual Meeting. Because no routine discretionary matters for which broker non-votes may be submitted will be considered at this Meeting, broker non-votes, if any, will be treated as not present at the Meeting and, thus, not entitled to vote with respect to the Proposal.

Kohlberg Capital will bear the expense of the solicitation of proxies for this Meeting. Solicitation of proxies may be made by mail, personal interview or telephone by officers, directors and other employees of the Company and by employees of the Company’s transfer agent, American Stock Transfer & Trust Company (“**AST**”). The Company will reimburse AST and the Company’s banks, brokers, and other custodians, nominees and fiduciaries for their reasonable costs in the preparation and mailing of proxy materials to shareholders. In addition, the Company may retain The Altman Group, a professional proxy soliciting firm, to assist in the solicitation of proxies and, if it does so, will pay such firm a fee estimated to be \$6,000, plus reimbursement of out-of-pocket expenses.

The Internet and telephone procedures for voting and for revoking or changing a vote are designed to authenticate shareholders’ identities, to allow shareholders to give their voting instructions and to confirm that shareholders’ instructions have been properly recorded. Shareholders that vote through the Internet should understand that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies, which will be borne by the shareholder.

This Proxy Statement and the accompanying Notice of Special Meeting of Shareholders and proxy card were first mailed to shareholders on or about June 27, 2008.

VOTING SECURITIES

Voting Rights

The record date for the determination of shareholders entitled to notice of and to vote at this Meeting was the close of business on June 16, 2008 (the “**Record Date**”). On the Record Date, there were 21,234,482 shares of common stock, par value \$0.01 per share, the Company’s only voting securities, outstanding. Each share of common stock is entitled to one vote. Under the Company’s bylaws, the holders of a majority of the shares of common stock outstanding and entitled to vote at this Meeting shall constitute a quorum for the transaction of business at this Meeting. Shares of common stock represented in person or by proxy, including shares which abstain, will be counted for purposes of determining whether a quorum is present. As broker non-votes will be treated as not present at the Meeting and, thus, not entitled to vote with respect to the Proposal, they will not be counted for quorum purposes.

Vote Required

The affirmative vote of (i) the holders of a majority of the outstanding shares of common stock entitled to vote at this Meeting; and (ii) the holders of a majority of the outstanding shares of common stock entitled to vote at this Meeting that are not held by “affiliated persons” (as defined in the Investment Company Act of 1940, as amended (the “1940 Act”)) of the Company is required to approve the Proposal. For purposes of the Proposal, the 1940 Act defines “a majority of the outstanding shares” as: (i) 67% or more of the voting securities present at this Meeting if the holders of more than 50% of the outstanding voting securities of the Company are present or represented by proxy; or (ii) 50% of the outstanding voting securities of the Company, whichever is less. Abstentions will be considered present at the Meeting and will have the effect of a vote against the Proposal. Broker non-votes will be treated as not present at the Meeting and, as a result, will have no effect on the Company’s ability to obtain the approval of 67% or more of the voting securities present at the Meeting but would have the same effect as a vote against the Proposal if the Company did not obtain the approval of 67% or more of the voting securities present and instead were seeking to obtain the affirmative vote of 50% of the outstanding voting securities of the Company. Unless otherwise indicated, the persons named in the proxy will vote all proxies in favor of the Proposal. If the Proposal is not approved, the Board will consider alternatives available at that time.

Additional Solicitation

If there are not enough votes to approve the Proposal at this Meeting, the shareholders who are represented may adjourn this Meeting to permit the further solicitation of proxies. Any adjournment will require the affirmative vote of a majority of those shares that are represented at the Meeting in person or by proxy, whether or not a quorum is present. The persons named as proxies will vote those proxies for such adjournment, unless marked to be voted against the Proposal, to permit the further solicitation of proxies. Abstentions and broker non-votes, if any, will not have any effect on the result of the vote for adjournment.

PROPOSAL TO AUTHORIZE THE COMPANY, WITH APPROVAL OF ITS BOARD OF DIRECTORS, TO SELL SHARES OF ITS COMMON STOCK OR WARRANTS, OPTIONS OR RIGHTS TO ACQUIRE COMMON STOCK AT A PRICE BELOW THE THEN CURRENT NET ASSET VALUE PER SHARE OF SUCH STOCK

The Company is an internally managed, non-diversified closed-end investment company that has elected to be regulated as a business development company (a “BDC”) under the 1940 Act. The 1940 Act prohibits the Company from selling shares of its common stock or warrants, options or rights to acquire its common stock at a price below the then current net asset value per share of such stock, subject to certain exceptions. One of these exceptions permits the sale of common stock or warrants, options or rights to acquire common stock at a price below the then current net asset value per share of such stock if the sale is approved by holders of a majority of the Company’s outstanding voting securities and by the holders of a majority of the Company’s outstanding voting securities who are not “affiliated persons” (as defined in the 1940 Act) of the Company within one year immediately prior to any such sale.

Pursuant to the Proposal, the Company is seeking the approval of its shareholders so that it may, in one or more public or private offerings of its common stock, sell or otherwise issue shares of its common stock or warrants, options or rights to acquire its common stock at a price below the then current net asset value per share of such stock, subject to certain conditions discussed below. Such a sale may be to third parties, current shareholders or affiliates of the Company. If approved, the authorization would be effective for a period expiring on the one-year anniversary of the date of the shareholder approval (although warrants, options and rights issued pursuant to this authority may be exercised after the end of the one-year period). There is no limitation on the number of shares of common stock the Company may issue pursuant to this Proposal. If any warrants, options or rights to acquire the Company’s common stock are issued, the terms of such securities, including dividend or interest rates, conversion prices, voting rights, redemption prices, maturity dates and similar matters, will be determined by the Board.

Reasons to Offer Common Stock or Warrants, Options or Rights to Acquire Common stock at a Price Below Net Asset Value

The Company believes that market conditions will continue to provide attractive opportunities to deploy capital. Over the past several months, U.S. credit markets, including middle market lending, have experienced significant turbulence spurred in large part by the sub-prime residential mortgage crisis and concerns generally about the state of the U.S. economy. This has led to significant stock price volatility for capital providers such as the Company and has made access to capital more challenging. However, the change in market conditions also has had beneficial effects for capital providers, including more reasonable pricing of risk and more appropriate contractual terms. Accordingly, for firms that continue to have access to capital, the current environment should provide investment opportunities on more favorable terms than have been available in recent periods. The Company’s ability to take advantage of these opportunities is dependent upon its access to equity capital.

As a BDC and a regulated investment company (“RIC”) for tax purposes, the Company is dependent on its ability to raise capital through the issuance of common stock. RICs generally must distribute substantially all of their earnings to shareholders as dividends in order to achieve pass-through tax treatment, which prevents the Company from using those earnings to support new investments. Further, BDCs must maintain a debt to equity ratio of less than 1:1, which requires the Company to finance its investments with at least as much equity as debt in the aggregate. The Company maintains sources of liquidity through a portfolio of liquid assets and other means, but generally attempts to remain close to fully invested and does not hold substantial cash for the purpose of making new investments. Therefore, to continue to build the Company’s investment portfolio, and thereby support maintenance and growth of the Company’s dividends, the Company endeavors to maintain consistent access to capital through the public and private equity markets enabling it to take advantage of investment opportunities as they arise.

(1) Net asset value per share is generally determined as of the last day in the relevant quarter and therefore may not reflect the net asset value per share on the date of the high and low sales prices. The net asset value shown is based on outstanding shares at the end of the applicable period.

(2) Net asset value has not yet been calculated for this period. We generally determine the net asset value per share of our common stock on a quarterly basis.

Although the Company has in the past experienced a share price above the net asset value, there can be no assurance that this will occur, and, in fact, recently the Company's share price has been well below net asset value. The unprecedented nature of the current credit market dislocation and uncertainty surrounding the U.S. economy has led to significant stock market volatility, particularly with respect to the stock of financial services companies. During times of increased price volatility, the Company's common stock may periodically trade at a smaller premium or below its net asset value, which is not uncommon for BDCs like the Company. The Company's common stock at various times in recent months has traded below the net asset value. As noted above, however, the current market dislocation has created, and we believe will continue to create, favorable opportunities to invest, including opportunities that, all else being equal, may increase net asset value over the longer-term, even if financed with the issuance of common stock or warrants, options or rights to acquire the Company's common stock at below net asset value. Shareholder approval of the Proposal will provide the Company with greater flexibility to invest in such opportunities.

The Board believes that having the flexibility to issue its common stock or warrants, options or rights to acquire the Company's common stock at below net asset value in certain instances is in the best interests of shareholders. If the Company were unable to access the capital markets as attractive investment opportunities arise, the Company's ability to grow over time and continue to pay steady or increasing dividends to shareholders could be adversely affected. It could also have the effect of forcing the Company to sell assets that the Company would not otherwise sell, and such sales could occur at disadvantageous times.

Conditions to Sales Below Net Asset Value

If shareholders approve the Proposal, the Company will only sell shares of its common stock or warrants, options or rights to acquire its common stock at a price below the then current net asset value per share of such stock if the following conditions are met:

- a “required majority” of the Company’s directors have determined that any such sale would be in the best interest of the Company and its shareholders; and
- a “required majority” of the Company’s directors, in consultation with the underwriter or underwriters of the offering if it is to be underwritten, have determined in good faith, and as of a time immediately prior to the first solicitation by or on behalf of the Company of firm commitments to purchase such securities or immediately prior to the issuance of such securities, that the price at which such securities are to be sold is not less than a price which closely approximates the market value of those securities, less any underwriting commission or discount.

A “**required majority**” of directors means both a majority of the Company’s directors who have no “financial interest” in the transaction and a majority of the Directors who are not “interested persons” of the Company within the meaning of Section 2(a)(19) of the 1940 Act (the “**Independent Directors**”). For these purposes, Directors will not be deemed to have a financial interest solely by their ownership of Company stock.

Even if the Proposal is approved, the Company will not be required to sell any common stock or warrants, options or rights to acquire its common stock.

Key Shareholder Considerations

Before voting on the Proposal or giving proxies with regard to this matter, shareholders should consider the potentially dilutive effect of the issuance of shares of the Company’s common stock or warrants, options or rights to acquire its common stock at a price below the then current net asset value per share of such stock. Any sale of common stock or warrants, options or rights to acquire common stock at a price below the then current net asset value per share of such stock would result in an immediate dilution to existing common shareholders. This dilution would include reduction in the net asset value per share as a result of the issuance of shares at a price below the net asset value per share and a proportionately greater decrease in a shareholder’s interest in the earnings and assets of the Company and voting interest in the Company than the increase in the assets of the Company resulting from such issuance. The Board will consider the potential dilutive effect when considering whether to authorize any such issuance.

Shareholders should also consider that they will have no subscription, preferential or preemptive rights to additional shares of the common stock or warrants, options or rights to acquire common stock proposed to be authorized for issuance, and thus any future issuance of common stock or warrants, options or rights to acquire common stock may dilute such shareholders’ holdings of common stock as a percentage of shares outstanding to the extent shareholders do not purchase sufficient shares in the offering or otherwise to maintain their percentage interest. Further, if current shareholders of the Company do not purchase any shares to maintain their percentage interest, regardless of whether such offering is above or below the then current net asset value, their voting power will be diluted.

If the Proposal is approved by the shareholders, the Company will be permitted, but not required or otherwise obligated, to sell shares of its common stock or warrants, options or rights to acquire its common stock at a price below the then current net asset value per share of such stock until the one-year anniversary of the date of the shareholder approval. If the Proposal is not approved, the Company may be unable to raise capital when it would be beneficial and desirable, or may be limited in the manner in which it raises capital (for example, by being required to utilize a rights offering).

The affirmative vote of (i) the holders of a majority of the outstanding shares of common stock entitled to vote at this Meeting; and (ii) the holders of a majority of the outstanding shares of common stock entitled to vote at this Meeting that are not held by “affiliated persons” (as defined in the 1940 Act) of the Company is required to approve the Proposal. For purposes of the Proposal, the 1940 Act defines “a majority of the outstanding shares” as: (i) 67% or more of the voting securities present at this Meeting if the holders of more than 50% of the outstanding voting securities of the Company are present or represented by proxy; or (ii) 50% of the outstanding voting securities of the Company, whichever is less. Abstentions will be considered present at the Meeting and will have the effect of a vote against the Proposal. Broker non-votes will be treated as not present at the Meeting and, as a result, will have no effect on the Company’s ability to obtain the approval of 67% or more of the voting securities present at the Meeting but would have the same effect as a vote against the Proposal if the Company did not obtain the approval of 67% or more of the voting securities present and instead were seeking to obtain the affirmative vote of 50% of the outstanding voting securities of the Company. Unless otherwise indicated, the persons named in the proxy will vote all proxies in favor of the Proposal.

THE BOARD RECOMMENDS A VOTE “FOR” THE PROPOSAL TO AUTHORIZE THE COMPANY TO SELL SHARES OF ITS COMMON STOCK DURING THE NEXT YEAR AT A PRICE BELOW THE COMPANY’S THEN CURRENT NET ASSET VALUE PER SHARE.

CONTROL PERSONS AND PRINCIPAL SHAREHOLDERS

No person is deemed to control us, as such term is defined in the 1940 Act.

- each person known to us to beneficially own more than 5% of the outstanding shares of our common stock;

The Corporate Secretary's office will forward such correspondence unopened to one or more members of the Board, unless the envelope specifies that it should be delivered to a specific director.

"Householding" of Proxy Materials

The SEC has adopted rules that permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements with respect to two or more shareholders sharing the same address by delivering a single proxy statement addressed to those shareholders. This process, which is commonly referred to as "householding," potentially provides extra convenience for shareholders and cost savings for companies. The Company and some brokers household proxy materials, delivering a single proxy statement to multiple shareholders sharing an address unless contrary instructions have been received from the affected shareholders. Once you have received notice from your broker or the Company that they will be householding materials to your address, householding will continue until you are notified otherwise or until you revoke your consent. If at any time you no longer wish to participate in householding and would prefer to receive a separate proxy statement, or if you are receiving multiple copies of the proxy statement and wish to receive only one, please notify your broker if your shares are held in a brokerage account or the Company if you hold registered shares. You can notify the Company by sending a written request to Kohlberg Capital Corporation, Investor Relations, 295 Madison Avenue, 6th Floor, New York, New York 10017, or calling Investor Relations at (212) 455-8300.
