Cautionary Statement Regarding Forward-Looking Statements

This presentation contains forward-looking statements. The matters discussed in this presentation, as well as in future oral and written statements by management of Portman Ridge Finance Corporation ("PTMN", "Portman Ridge" or the "Company"), that are forward-looking statements are based on current management expectations that involve substantial risks and uncertainties which could cause actual results to differ materially from the results expressed in, or implied by, these forward-looking statements.

Forward-looking statements relate to future events or our future financial performance and include, but are not limited to, projected financial performance, expected development of the business, plans and expectations about future investments, our contractual arrangements and relationships with third parties, the ability of our portfolio companies to achieve their objectives, the ability of the Company's investment adviser to attract and retain highly talented professionals, our ability to maintain our qualification as a regulated investment company and as a business development company, our compliance with covenants under our borrowing arrangements, and the future liquidity of the Company. We generally identify forward-looking statements by terminology such as "may," "will," "should," "expects," "plans," "anticipates," "could," "intends," "target," "projects," "outlook", "contemplates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of these terms or other similar words. Forward-looking statements are based upon current plans, estimates and expectations that are subject to risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove to be incorrect, actual results may vary materially from those indicated or anticipated by such forward-looking statements.

Forward-looking statements are subject to change at any time based upon economic, market or other conditions, including with respect to the impact of the COVID-19 pandemic and its effects on the Company and its portfolio companies' results of operations and financial condition. More information on these risks and other potential factors that could affect the Company's financial results, including important factors that could cause actual results to differ materially from plans, estimates or expectations included herein, is included in the Company's filings with the Securities and Exchange Commission (the "SEC"), including in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of the Company's most recently filed quarterly report on Form 10-Q and annual report on Form 10-K, as well as in subsequent filings. In addition, there is no assurance that the Company will purchase additional shares of its common stock under its announced \$10 million stock repurchase plan at any specific discount levels or in any specific amounts. There is no assurance that the market price of the Company's shares, either absolutely or relative to net asset value, will increase as a result of any share repurchases, or that any repurchase plan will enhance stockholder value over the long term. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this presentation should not be regarded as a representation by us that our plans and objectives will be achieved. We do not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required to be reported under the rules and regulations of the SEC.

Investment Objectives and Strategy

Investment Objectives

- ❑ Focus on direct origination of senior secured debt investments to the middle market; target portfolio company EBITDA between \$10-50 million
- ❑ Deliver strong and sustainable risk-adjusted returns to stockholders
- ❑ Reduce CLO exposure over time and opportunistically

Investment Strategy and Philosophy

- ❑ Utilize entire BC Partners platform to directly originate loans and investments which allows for greater sourcing capabilities, ability to invest across the liquidity spectrum and participation in larger deals
- ❑ Seek to generate alpha through market dislocations, structural documentation, relationship advantages and regional expertise; target opportunities where other capital is retrenching due to limited duration and regulatory restrictions
- ❑ Focus on capital preservation; maximize margin of safety through financial and structural protection
- ❑ Leverage sector expertise and knowledge base across consumer & retail, business & financial services, healthcare, industrials, and TMT
- ❑ Apply the same private equity style investment process employed for over 30 years at BC Partners with a long-term focused investment philosophy

- ❑ **Small-cap BDC backed by BC Partners, a global multi-asset investment manager**
 - Benefits from being part of a larger platform compared to other standalone, similar-sized BDCs
- ❑ **Experienced, strategic management team with a track record of execution and focused on delivering EPS growth**
 - Announced and closed 4 M&A transactions in two years
- ❑ **Solid recent investment performance and steady dividend history**
 - Recently increased dividend per share to \$0.63 per share (from \$0.62 and \$0.60 in 2021)
 - Dividend as a percentage of NAV is well within peers and supported by strong dividend coverage, among the leaders in the industry
- ❑ **Strong stockholder alignment and stockholder friendly actions**
 - Incentive fee waivers and use of incentive fees to repurchase shares at NAV under certain circumstances
- ❑ **At an inflection point following recent transactions – scale achieved, portfolio repositioning, and combined company synergies continuing to drive value to stockholders**
 - Scale has resulted in public market enhancements including increased share liquidity, improved float and greater institutional awareness
 - Spreading of public company and other fixed costs across a larger asset base
 - Ability to speak for larger deals and increased capacity for higher yielding, non-eligible assets

While PTMN's distributions relative to NAV per share represents an attractive investment, the company's discount to NAV is significantly greater than the BDC average

BC Partners' Broader Institutional Platform

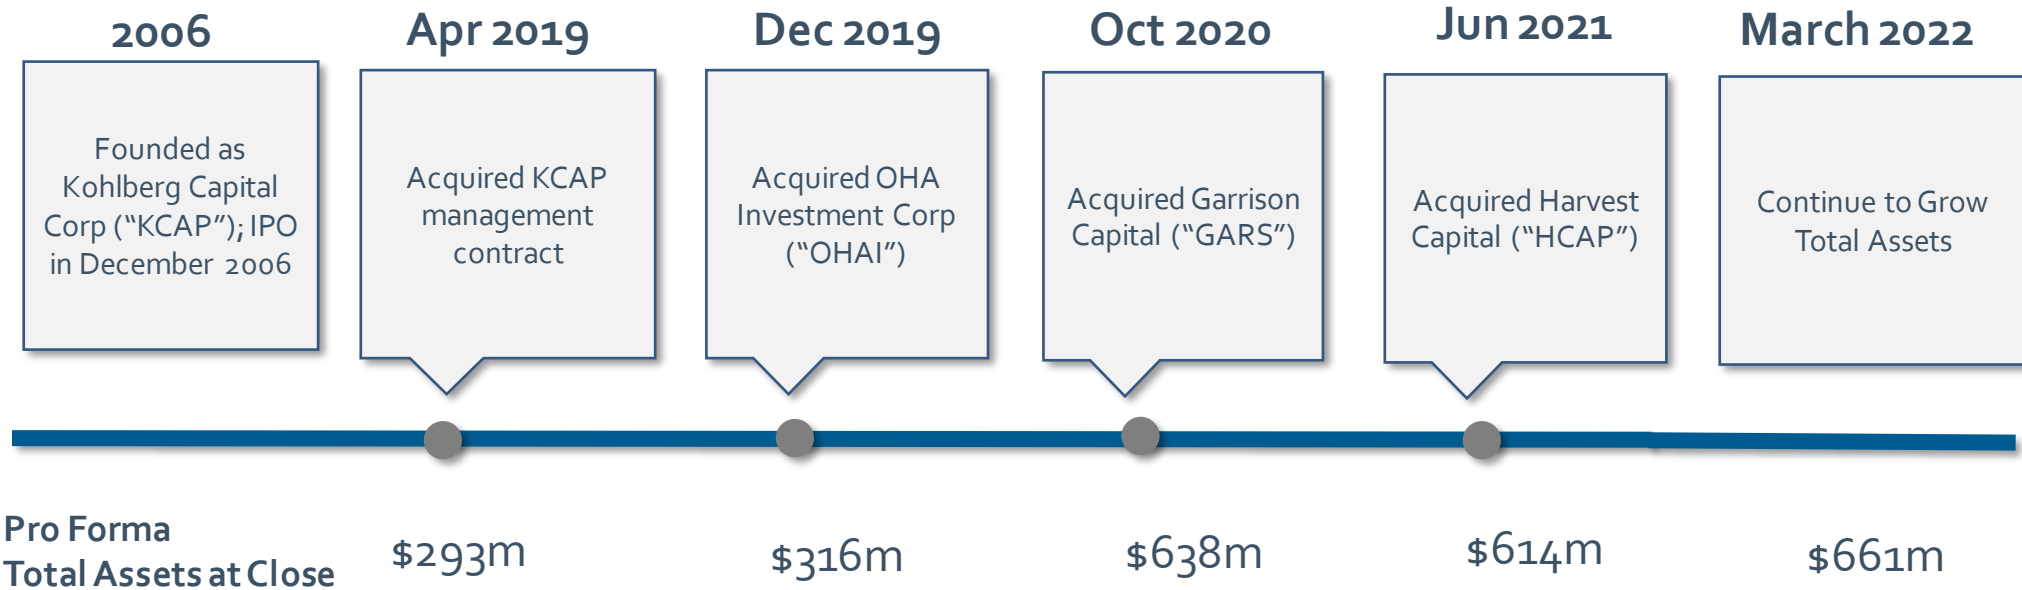

- Legal & Compliance
- Capital Markets
- Central Functions (HR, IT, Finance, Admin, etc.)
- Investor Relations

While the increasing popularity of direct lending has gathered many headlines as of late, we believe the BC Partners Credit platform is differentiated on four key aspects

Views expressed are those of BCP Credit.

1. Anticipated portfolio construction provided for illustrative purposes only.

- Our track record demonstrates BC Partners' ability to efficiently realize the value of legacy portfolios acquired while rotating into BC Partners' sourced assets
- We are in the early stages of implementing the same strategy with the acquired and fully redeemed HCAP assets but were successful in several monetizations during the quarter

First Quarter 2022

Q1 2022 Highlights

- **Net asset value (“NAV”)** for the first quarter of 2022 remained relatively flat at \$278.3 million (\$28.76 per share⁽¹⁾) as compared to \$280.1 million (\$28.88 per share) in the fourth quarter of 2021, despite pervasive market volatility and other macro-economic and political factors.
- **Total investment income** the first quarter of 2022 was \$16.9 million, of which \$13.0 million was attributable to interest income from the debt securities portfolio.
- **Core investment income⁽²⁾** for the first quarter of 2022, excluding the impact of purchase price accounting, was \$15.1 million.
- **Net investment income (“NII”)** for the first quarter of 2022 was \$7.9 million (\$0.82 per share).
- **Fair value of investments** totaled \$568.0 million as of March 31, 2022; when excluding CLO Funds, Joint Ventures and short-term investments, these investments are spread across 30 different industries and 116 entities with an average par balance per entity of approximately \$3.3 million.
- **Non-accruals on debt investments** as of March 31, 2022, were reduced to six from seven investments as of December 31, 2021.
- **Par value of outstanding borrowings** as of March 31, 2022 was \$352.4 million with an asset coverage ratio of total assets to total borrowings of 180%. On a net basis, leverage as of March 31, 2022 was 0.97x.⁽³⁾
- **Shares repurchased** under the Company’s Renewed Stock Repurchase program during the quarter were 22,990 for an aggregate cost of approximately \$545 thousand.

⁽¹⁾ NAV per share as determined in accordance with U.S. generally accepted accounting principles, or U.S. GAAP, was decreased 5 cents per share due to the impact of a one-time quarterly tax provision.

⁽²⁾ Core investment income represents reported total investment income as determined in accordance with U.S. generally accepted accounting principles, or U.S. GAAP, less the impact of purchase price discount accounting in connection with the Garrison Capital Inc. (“GARS”) and Harvest Capital Credit Corporation (“HCAP”) mergers. Portman Ridge believes presenting core investment income and the related per share amount is useful and appropriate supplemental disclosure for analyzing its financial performance due to the unique circumstance giving rise to the purchase accounting adjustment. However, core investment income is a non-U.S. GAAP measure and should not be considered as a replacement for total investment income and other earnings measures presented in accordance with U.S. GAAP. Instead, core investment income should be reviewed only in connection with such U.S. GAAP measures in analyzing Portman Ridge’s financial performance.

⁽³⁾ Net leverage is calculated as the ratio between (A) debt, excluding unamortized debt issuance costs, less available cash and cash equivalents, and restricted cash and (B) NAV. Portman Ridge believes presenting a net leverage ratio is useful and appropriate supplemental disclosure because it reflects the Company’s financial condition net of \$3.6 billion of cash and cash equivalents. However, the net leverage ratio is a non-U.S. GAAP measure and should not be considered as a replacement for the regulatory asset coverage ratio and other similar information presented in accordance with U.S. GAAP. Instead, the net leverage ratio should be reviewed only in connection with such U.S. GAAP measures in analyzing Portman Ridge’s financial condition.
